

EXCELLENT PERFORMANCE

ENVIRONMENTALLY SAFE

Synclean Concentrated Surface Equipment Cleaner

Description: Synclean is a safe, water soluble, liquid detergent especially formulated to clean surface equipment when drilling with synthetic drilling fluids. Synclean will completely remove synthetic muds leaving surfaces clean with no oily film or residue. Synclean is environmentally friendly and may be safely used on painted surfaces, plastics, and even fabrics.

Physical Properties:

☞ Appearance.....	Purple Liquid
☞ Specific Gravity @ 60° F.....	1.02
☞ Density (lbs/gal).....	8.5
☞ Flash Point.....	> 201° F
☞ pH.....	> 10.0

Advantages:

- ☞ Versatile, highly concentrated product
- ☞ Biodegradable, non-flammable, non-corrosive, non-toxic
- ☞ Leaves no residual film when properly rinsed
- ☞ Excellent cleaner for surface cleanup of synthetic mud
- ☞ Safe for fabrics and may be used to launder work clothes soiled with synthetic mud

Application:

If desired, dilute Synclean prior to use. Apply to soiled surface by means of spray or brush. Scrub surface with brush or broom. Let sit for three to ten minutes. Hose off with water under pressure. The concentration of Synclean required depends on the severity of the surface to be cleaned.

Handling:

Improper handling of this product can cause injuries to workers. Observe all safety precautions shown on the label and on the Material Safety Data Sheet.
